

ECM Motor Training Class

Instructor: Saul Ortega

Location: Allied Refrigeration, 2300 East 28th Street, Signal Hill CA 90755

Date: Thursday, May 03, 2018 **Time:** 5:00pm to 7:00pm **Dinner and drinks served.**

Evergreen Motors & Class Description

From theory to practical knowledge, it's all here. The knowledge gained in this class will help all HVAC professionals gain the confidence and competence needed to discuss the benefits of, and install aftermarket ECM. Evergreen motors are aftermarket ECM capable of replacing PSC or X13 Standard ECM in wide variety of HVAC systems. As a PSC upgrade the Evergreen provides energy savings, and quiet continuous fan operation. As a generic X13 replacement Evergreen provides the repair part when you need it to get the job done. Genteq introduced aftermarket ECM to the HVAC industry in 2007 and is still leading the way today. Genteq is also the leader in ECM technology with over 25 years of experience in OEM HVAC systems.

Class Objectives

- Identify the basics of ECM technology
- Explain ECM efficiency and energy savings potential
- Identify the proper application for each product
- Learn how to install Evergreen products
- Discuss OEM ECM diagnostics
- Learn about Genteq TECINSPECT tool
- New 2019 Energy standards
- Q & A

We will have a raffle for a **TECINSPECT®** DIAGNOSTIC TOOL!

GIVEAWAYS AVAILABLE!
