

TRAINING CLASS

Learn about Free Walk-in Monitoring and the future of refrigeration control! Class given by Rep. Geo Harris.

TUSTIN BRANCH

Wednesday, April 18, 2018 • 11:00 am - 1:00 pm
1211 Edinger Ave. Tustin, CA 92780
Phone: (714) 259-0109

Lunch will be provided!

Featured during the session:

KE2 Evap Family

Adaptive refrigeration controller for walk-in freezers & coolers.

- Eliminates unnecessary defrosts associated with timed based alternatives—reducing energy consumption and preserving product integrity
- Energy savings through identification of system performance issues using graphing and data logging feature
- Maximizes energy efficiency - less compressor run time, resulting from shorter defrosts
- Energy savings through improved performance due to the elimination of ice on the evaporator
- Reduces liability-eliminates ice buildup on floors
- KE2 Smart Access communication capability enables remote monitoring quickly
- Eliminates excessive temperature swings
- Alarm notification text/e-mail
- Remote monitoring & system control
- Includes 31 days of room and coil temperatures

KE2 Temp & KE2 Low Temp

Replaces the defrost timeclock & the thermostat.

- Ideal for truck stock - eliminates a defrost timeclock and a thermostat
- Simplifies wiring, saves installation time
- Alarm notifications via text or e-mail, (when used with KE2 LDA) & visual, audible alarming
- With the KE2 Flash Drive, log temp for 366 day
- Connect to KE2 SmartAccess customer portal without requiring controller upgrades
- Off time defrost on predefined /custom schedule

KE2 LDA Communication

Lets you remotely monitor, control & receive alarm notifications.

- Display a Local Area Dashboard showing the controllers connected to the local LDA network
- Send email Alarm notifications for all connected controllers, to multiple email recipients
- Create a Wireless Tether to the local network (wirelessly connect a controller to existing WiFi)
- View Serial devices in a webpage, make changes to setpoints, and receive alerts via email or text message
