# ICE MACHINE MAINTENANCE & INDOOR AIR QUALITY MANAGEMENT CLASS

**LAS VEGAS BRANCH: 4:00pm to 6pm - April 25th , 2019 • Food will be served!**

**3460 W. Post Road, Las Vegas, NV 89118 • Phone: (702) 361-1919**

**RSVP: Theresa Crowley 702-361-1919 or t.crowley@allied-refrig.com**

**Ice Machine Maintenance:** A complete guide to, “Extending the Life of an Ice Machine.” We will answer the questions; why use a filter, what filter should be used, and how to keep the system clean, clear and running properly. It addresses all the water-related problems associated with ice machines.

**Indoor Air Quality Management:** Topics covered: How poor IAQ impacts a business, common causes of poor IAQ, EPA classifications of symptoms, contaminants and buildings, microbiologic contaminants, Legionella and Stachybotrys, filtration methods and devices, and proper preventative maintenance.

## 1 Gallon Nickel-Safe Ice Machine Cleaner

Nickel-Safe Ice Machine Cleaner is a specially formulated food-grade product for removing scale deposits from ice machines having nickel-plated or tin-plated evaporators. It is acceptable for use in such machines made by Manitowoc and other manufacturers using nickel. It mixes to form a green solution which makes rinsing easier.

## 16 oz. IMS-III Sanitizer

IMS-II is an economical sanitizer that eliminates odors and slime build-up in all ice machines. This product is a sanitizer designed for general use, in ice machines, ice cream dispensing equipment and other food dispensing equipment.

## 12,000 Gallons nu-i4000<sup>2</sup> Nu-Plus Filter

Reduce water-related ice machine problems caused by dirt, objectionable tastes and odor and by scale buildup. Precoat submicron filtration removes particles as small as 1/2 micron along with chlorine and other offensive contaminants, and the feed of 6R Micromet® inhibits scale build-up caused by dissolved minerals.

## Residential Odor Block

ClenAir HVAC Odor Block is not a perfume mask or cover-up. The unique ClenAir formula molecularly reacts with the airborne odor causing compounds and eliminates them and other indoor pollutants leaving clean, fresh, air behind. The HVAC Odor Block makes it easy to remove odors and improve the indoor air quality in the entire home or building by treating the air through the HVAC system.

## Odor Neutralizer

Originally designed for use in central air systems, on fire and flood restoration jobs and in sewage facilities, ClenAir is a professional product, yet it leaves no lingering antiseptic or perfume smell. Use ClenAir gel to combat stubborn odor, even those that have built up over time like cigarette odor or pet odors. Simply place the gel near the source of the odor or in the return duct of your central air system.
