VACUUM PUMP DAY USE & MAINTENANCE TRAINING

Master the Art of Pulling a Vacuum & Pump Maintenance!

Join us for an IN-DEPTH TRAINING session designed to improve your skills in using and maintaining vacuum pumps. Whether you're new to the trade or a seasoned pro, this class will give you the knowledge and HANDS-ON experience you need to get the most out of your equipment.

PLATINUM FLEX A2L Compatible AC/Battery Powered Vacuum Pump

- Powered by JB's 9.0 Ah/18v lithium-ion battery or AC Adapter
- 1/2 HP DC brushless motor
- Available in 3 CFM or 5 CFM
- Easy access 1/4", 3/8" or 1/2" intake tee
- 15 micron vacuum rating
- Gas ballast and blank-off isolation valve
- Easy-to-read oil level sight glass
- Internal check valve prevents oil back-flow
- Field repairable

What You'll Learn...

- **Proper Techniques for Pulling a Vacuum**
Learn the proven methods to achieve an efficient vacuum in your HVAC system.
- **Live Pump Breakdowns**
Watch as we disassemble a vacuum pump to reveal its key components and how each part works.
- **The Importance of Vacuum Pump Oil**
Discover why regular oil changes are critical for performance and how to recognize when it's time to change your oil.
- **Maintenance Tips**
Get expert advice on keeping your pump running at factory specifications for peak performance.
- **Quick Oil Change Tricks**
Learn time-saving methods for changing vacuum pump oil in less than 3 minutes.
- **Testing Micron Gauges**
We'll test your micron gauge for accuracy and ensure it is working properly.

[Bring your vacuum pump & micron gauge! Manifolds optional.]
