

LUNCH & LEARN BBQ

Featuring Coil Cleaning & Bacterial Disinfectant Products
BBQ Tri-Tip will be served - Provided by Nu-Calgon!

Cal-Brite

Allied Part No: 1925200

Developed for cleaning evaporator coils, air-cooled condensers and other finned cooling and heating coils. The activity between the glycolic acid and the ammonium bifluoride produces a synergistic cleaning effect, resulting in a clean, brightened coil with safety to the applicator and the job site as compared to HF-based products.

Special HD CalClean

Allied Part No: 1925197

Specifically designed for cleaning electronic air filters that can become coated with tobacco tars and other deposits that are very difficult to remove with ordinary detergents. HD CalClean will rapidly clean dirt, grease, dust and tars from the plates on these filters and, it will not corrode or tarnish aluminum or other metals when used at the recommended concentrations.

Cal-Shield

Allied Part No: 1925222

Specifically designed for application on air-cooled condensers, evaporator coils and other finned heating and cooling coils where it forms a micro-thin or molecular film of Teflon. Once applied, Cal-Shield will shield and protect the coil from adverse conditions within the operating environment.

Evap-Fresh

Allied Part No: 1923852

Bio-Fresh

Allied Part No: 1929795

IMS-III

Allied Part No: 1925700

Spray Nine

Allied Part No: 1927815
