JACKET®**

**COUNTER  
DAY**

### Ratchet Hand Bender

- Easy one hand bending of 1/4" to 7/8" soft copper and soft aluminum. Hard copper must be annealed before bending.
- Quick change bending mandrels and shoes
- Trouble free ratchet mechanism
- Index marks to locate bends
- Complete tube bender kit includes all items required to bend 1/4", 5/16", 3/8", 1/2", 5/8", 3/4" and 7/8" tubing
- Reverse bending mandrel included in 60325 kit.

### TITAN 4-Valve Aluminum Manifold

- Fourth hose to enable connection to hi-/lo-sides, refrigerant tank and recovery unit or vacuum pump for diagnostics, evacuation and charging without switching hoses.
- 3/8" Vacuum port for use with larger hose to cut evacuation time by up to 33% (all other fittings are 1/4").
- Large, easy-to-read 3-1/8" (90 mm) steel case red and blue, 1% accuracy gauges.
- Double "O" ring piston for reliability and long service life.
- Exclusive 100 mesh filter in-line on all flare fittings helps keep out particulate material and extend the life of the seats.
- Contoured easy-grip handles for positive control; color-coded for ready identification.
- Sight glass to view refrigerant movement and condition during charging and recovery.

### BRUTE II 4-Valve Aluminum Manifold

- The aluminum alloy body is forged for strength and reliability with 3/8" bores through the body.
- Fourth hose enables connection to hi-/lo-sides, refrigerant tank and recovery unit or vacuum pump for diagnostics, evacuation and charging without switching hoses.
- Front access for easy field recalibration.
- Double "O" ring piston for reliability and long service life.
- Exclusive 100-mesh filter in-line on all flare fittings helps keep out particulate material and extend the life of the seat.
- Contoured easy-grip handles for positive control; color-coded for ready identification.
- Sight glass to easily view refrigerant movement and condition during charging and recovery.
